	The flashing tab is quite agressive						
	Chat bot is intrusive and annoying						
	Contrast of the colour and buttons is poor						
	How patch works. None of the options are clickable and doest lead you to anything						
	the drop down of the drop down design pattern						
	Enter takes you to next page when adding						
	No back button No minimum on the photo						
	resolution						
	Not able to crop or change the photos once added						
	Dont show pixel dimensions						
	Next on the left not right Amenities has general and beauty salon but nor for the other types of venues						
	Has to click on the drop down to move out.						
	Nothing to show you what you have selected once you click out of general amenities						
	Capcity could be under description						
	Unclear copy on number of venues						
	Quantity is an ambiguous title						
	No multi book discount etc When setting times available you have to manually input						
	Have to click every single day that the venue/patch						
	Would be good to have notification of some sort to let you know that your listing is saved.						
Booking	Pink for price is terrible						
-	Alighment and hierarchy on venue page is wrong						
	Contact is nearly invisible of venue page						
	24-12 hours time chage not consistent						
	Overlay to add discount code when you could jsut have a box						
	Calendar is intense pink background						
	All caps gives the impression of shouting on booking page						
	When in catagories you cant then select a different one and have to move back to the home page						
	Distance force is not						
Homepage	Platforms fees is not clickable
